Education

HILLWOOD SCHOOL
2011 - 2023

Scored 94% in 10th and 90% in 12th, consistently excelling in academics. Served as Boys' Vice School Captain in 12th grade, showcasing leadership and teamwork skills

Bachelor of Technology
VIT Bhopal University
2023 - 2027

Currently in my second year at VIT Bhopal, specializing in Artificial Intelligence & Machine Learning within Computer Science & Engineering. Actively gaining knowledge and skills in data science, machine learning algorithms, and software development through coursework, hands-on projects, and research.

About Me

A highly motivated and skillful student with strong leadership qualities and a passion for programming. Ability to adapt and thrive in fast-paced environments, with a keen interest in developing advanced technical skills and leading data science projects.

Enthusiastic about software development and problem-solving, eager to apply knowledge in Python and C++ through real-world applications and projects.

My ongoing education in B. Tech from VIT Bhopal has equipped me with strong computer skills, project management, and exceptional interpersonal communication abilities.

Experience

💼 Data Science & Machine Learning summer Internship
